

By requesting an academic license, University agrees to the limitations below.

- The license is free and have to be renewed on annual basis
- The license is only for education and/or non-commercial research purposes. It cannot be used for any commercial project/work/research
- This is responsibility of the lecturer to provide support to the students
- University will provide a signed letter stating that the license will be used strictly for education and not for commercial use. An example of the text is attached.
- University agrees that Geomage may to publish a press release declaring that Geomage donated its software ( g-Platform, g-Space or other) to the University.
- University agrees that its logo will be added to Geomage website into “Academic partners” or similar section.
- Any publication and/or research and/or talk at the conference should acknowledge the use of Geomage software.
- Geomage has the right according to its sole decision not to renew the license on any or all parts of the software.

License configuration:

- If the license planned to be used in a classroom, all workstations must be in the same sub-net.
- Optionally, and in addition to the classroom license, Geomage allows a personal academic license for each student that participates the course. It can be installed on students’ notebooks for the duration of the course. For that:
  - The lecturer shall provide an updated list of participating students and their email addresses.
  - Only these email addresses will be eligible for requesting and receiving a personal student academic license for duration of the course.
  - The student’s license will be limited to 1 CPU core.
